U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On January 26, 1975
- Export shipments in
Current Marketing Year
- Daily Sales reported
January 27 - February 4, 1975

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on February 6, 1975, release:

Wheat: The cancellation of 200,000 metric tons (MT) of wheat for November 1974-April 1975 delivery to the Soviet Union and a 209,000 MT decrease in the apparent commitment to Iran were the most important features during the week. On the plus side, the apparent export commitment increased by 100,000 MT to Japan, 174,000 MT to Africa, and 94,000 MT to India in the week ending January 26. Sales totaling 254,000 MT to India for 1975/76 delivery were also recorded under the daily reporting system.

Feed Grains: In the week ending January 26, the apparent commitment increased by almost 300,000 MT, spurred mainly by reported corn sales of almost 100,000 MT each to Portugal and Spain. A sale of 100,000 MT of corn for October-December 1975 shipment was recorded for the USSR under the daily reporting system.

Rice: The apparent export commitment rose by 84,000 MT during the week ending January 26. New sales to Iran and the Republic of Korea totaling over 100,000 MT were reported during the week, while the apparent export commitment to unknown destinations was trimmed by 32,000 MT.

Soybeans: Soybean exports rose to 322,400 MT in the week ending January 26, including 205,700 MT to EC destinations. The Ministers of Agriculture of West Germany and Brazil signed an agreement on January 28, 1975, giving West Germany preferential access to Brazilian soybeans and products during periods of tight supply. However, no quantitative guarantees are included in the agreement and trade would be at world prices.

Soybean Meal: Apparent export commitments declined by 401,000 MT, while exports increased sharply to 152,800 MT during the week ending January 26. In response to a survey of purchases of U.S. soybean meal by East European state trading agencies, the following were reported: Bulgaria's FURZHIMPORT indicates no outstanding purchases beyond 18,000 MT imported in CY 1974; Romania's ROMAGRIMEX reports purchases of 108,800 MT, shipments of 12,000 MT, and 96,800 MT remaining to be imported as of December 31, 1974; Czechoslovakia's KOOSPOL reports purchases of 116,000 MT, including shipments through January 15, 1975, of 67,300 MT.

Soybean Oil: During the week ending January 26, exports of soybean oil declined to 3,700 MT and the unadjusted annual rate of exports fell to 550,000 MT, about in line with the current USDA estimate.

Cotton: Upland cotton exports during the week ending January 26 were 66,000 running bales (RB). The apparent export commitment increased 31,000 RB, mostly to Taiwan and Korea, and stands at 4,420,000 RB.

A N N O U N C E M E N T

On November 21, 1974, the Foreign Agricultural Service announced plans to shorten its weekly release of U.S. Export Sales and to furnish additional data on accumulated export shipments. After considering public comment and other factors it has been decided to make the following format changes effective with release on February 13, 1975.

1. "Exports During Week" for all classes of wheat, "All Wheat" and "All Upland Cotton" will be changed to "Cumulative Exports" for the current marketing year.
2. "Cumulative Exports" will be shown for all other published commodities.
3. Separate tables for Mixed Wheat, Flaxseed, Cottonseed, American Pima Cotton, staple lengths of Upland Cotton and classes of rice will no longer be published. Any significant activity affecting these commodities will be covered in page 2 and 3 summaries or in the "Comments" portion of future weekly reports. In addition, data on outstanding sales and exports for these commodities may be obtained from the Export Sales Division, Foreign Agricultural Service, USDA, Washington, D. C. 20250, telephone (202) 447-9209.

S P E C I A L N O T E

Data in this report include export sales, export shipments and other related transactions between private U.S. exporters and foreign buyers. Sales made and shipments financed under Title I, P.L. 480 are included in weekly reports to the Department, but are excluded from daily reporting requirements under Notice to Exporters No. 1, Revision 1. Purchases by the Commodity Credit Corporation under Title II, P.L. 480 which result in exports by CCC or voluntary agencies, do not meet any of these reporting requirements and are not included in the data on the following tables.
